

INFERNO MODEL UNITED NATIONS

2ND AND 3RD
AUGUST 2025

WHAT IS ?

MODEL UNITED NATIONS

In Model United Nations (MUN), students act as representatives of various nations or dignitaries in an intellectual simulation of the UN. Participants deliberate and discuss the policies, etc., of their allocated country to solve real-world problems. For example, a student has been designated to speak on behalf of Russia on international issues like nuclear non-proliferation or modern-day conflicts. In the same way, participants in an Indian committee would take on the duties of ministers to debate and settle national issues.

Model United Nations conferences are flexible and accessible, as they can be attended in person or virtually from anywhere in the world.

Participation in Model United Nations is meant to foster skills in negotiation, speaking, and communication. Material issues of diplomacy and policy can be approached through a quasi-academic process. In addition, crisis committees, which deal with crisis scenarios which can be contemporary or historical, can develop leadership skills, and the ability to adapt and deal with unexpected situations.

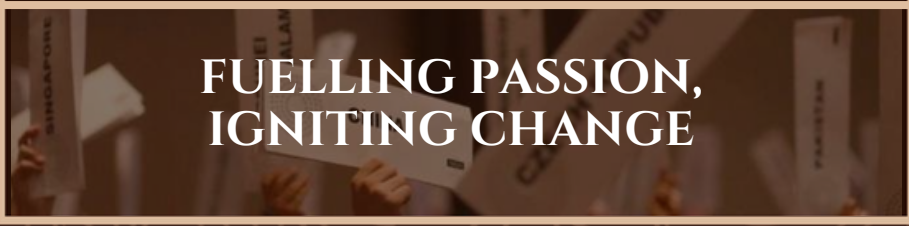

ABOUT INFERNO

MESSAGE FROM THE CHIEF ADVISOR

[MR. AAKARSHIT RAJ]

Dear Delegates, Organizers, and Esteemed Guests,

It is both a pleasure and a great honour for me to write this message for this year's Model United Nations Conference. MUN's are the perfect blend of great minds, creativity and leaders where young people come together with the aim of addressing some of the most difficult challenges that our world is facing now.

As a Chief Advisor, I have witnessed the tremendous efforts and commitment put forth by the organizing team and for that matter the sponsors who did everything within their means to make sure that the conference is a success. They have worked around the clock to make visions a reality as this would be a platform where diplomacy would be practiced and discussions would lead to solutions.

To the delegates, I urge you to finish in your minds the thought that this is a competition where resolutions and prizes are awarded. What you will be practicing here are the skills of compromise, respect for conflicting views and perseverance in achieving goals, while being able to work with others when appropriate. The issues you will be discussing are a reflection of a global context where population growth, conflict over resources and environmental challenges are but a few of the various obstacles that require your critical thinking and imagination.

MUNs really are the epitome of what is happening in the different nations across the world, and the skills that you acquire during this event will come in handy in the global village. It is not just a strictly academic event; it exemplifies the spirit of dialogue in conflict resolution and promoting togetherness.

Now as you prepare to be diplomats, policymakers and dreamers for the next couple of days, I want you to be adventurous, inquisitive, and analytical. This MUN has to be one that changes the way you look at the world and encourage you to pursue a greater good.
I would like to thank the faculty, the sponsors and the volunteers for painstakingly working in collaboration to make this event a reality. This is not only a conference that we are out to redefine, we are redefining history.

Good luck creating unforgettable memories throughout the course of this event.
Best Regards,
Aakarshit raj
Chief Advisor

MESSAGE FROM THE FOUNDER

[Ms. Navya Jagram]

Dear Delegates,

"True leadership is not about power, but about empowering others; not about winning arguments, but about building consensus for a brighter tomorrow.

As the founder of Inferno MUN, my vision has always been to create a platform where leadership transcends the boundaries of debate and transforms into action. True leadership lies in empowering voices, fostering collaboration and building bridges of understanding. Let this conference be a testament to our shared commitment to shaping a brighter and united future.

First and foremost, I'd like to welcome all of you to this year's edition. of our Model United Nations conference. I personally believe that MUNs are not just academic conferences but opportunities for the delegates to think differently, seek solutions, and become the future leaders.

In this modern day, the need for understanding and engagement might be more important than ever. Through this conference, I believe as a group we have developed a forum where various opinions meet, and ideas are formed. Each of you brings a distinct voice that shapes diverse opinions, ultimately influencing perspectives and driving action.

As you assume the positions of policymakers, diplomats, and leaders, Please treat the sessions with inquisitiveness, zeal, and willingness to learn. May this conference change and improve your perceptions of the world, challenge your beliefs, and broaden your horizons.

I would also like to convey my sincere thanks for your support and the participation of the conference on behalf of the organizing committee. Let's all work together in ensuring that this conference is one that will be remembered and has a great lasting impact.

Warm regards,
navya jagram

MESSAGE FROM THE COFOUNDER

[Mr. Vihan Upadhyay]

Dear delegates,

'The biggest mistake is to think that someone else would save the world.'

whenever issues are raised in a society, whenever tables are turned and blames are on, there is a lot of criticism but no action. This quote makes me feel that starting opportunities such as of a model The United Nations Conference is contributing greatly to a call for action.

Hence, I wholeheartedly welcome all the young minds who have come to seek this opportunity of participating in the inferno model United Nations. This conference aims to provide such brilliant minds the platform to engage themselves in the technicalities of this world.

This conference I hope won't be just a competition but a testimony to the diplomacy and democracy of our country. Being the co-founder of the Inferno Model United Nations, I am not Able to express the immense pleasure I feel in contributing to the youth of my country. After this conference is a success, I can with
utmost pride declare that I have been a part in creating the leaders of tomorrow.

When we started Inferno, we started with immense hope and faith. that this conference would turn out to be the best. The only objective behind starting with this unforgettable journey was to produce such an outcome that would not only provide delegates a platform but would inspire and encourage them to take up initiatives and fulfill their goals.

inferno—As the name suggests, believes that the fire of diplomacy and debate within each one of you has to be given a platform where it can spread vigorously rather than being forced to be extinguished. And that is why we started Inferno.
